

The Execution of Sun Ra: The Mysterious Tale of a Dark Body Sent to Earth to Usher in an Unprecedented Era of Cosmic Regeneration and Happiness was published in 2014 in celebration of the centenary of Sun Ra's birth. It is not a biography of this great cultural figure but rather a critical response to the unique ideas that he advanced during the course of an enormously productive life. The first "volume" of the execution of Sun Ra's redemptive plan for planet Earth was constituted by the corpus of Sun Ra's earthly work as artist, writer, and orator. This second volume of the execution of Sun Ra's cosmic conspiracy, a 242-page monograph, is available by using this ordering form.

If Stanley doesn't succeed in rationalizing Ra's arcana for academia, he's certainly made the gamest attempt yet at rhizomaticising the many-splendored knotty tangle of Mr. Mystery's soaring and sonorous metaphysics.
